

Environmental

Policy statement

This is the environmental policy statement for all Construction Labour Solutions (UK) Infrastructure Ltd activities as we believe it is up to us to minimise our impact on the environment.

Our commitment is that:

- We will support and comply with or exceed the requirements of current environmental legislation and codes of practice;
- We have nominated Catherine Fell to act as champion for environmental issues in order to develop, coordinate and improve this policy;
- We will minimise our waste and then reuse or recycle as much of it as possible;
- We will minimise energy and water usage in our building, vehicles in order to conserve supplies and minimise our consumption of natural resources, especially where they are non-renewable;
- We will operate and maintain company vehicles with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport as appropriate;
- We will apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impact from our operations on the environment and local community;
- We will ensure that all our employees and host employers are given access to our environmental policy;
- We will address complaints about any breach of our environmental policy promptly and to the satisfaction of all concerned;
- We will encourage and give advice (where possible) to our Host Employers in order to encourage and enhance environmental considerations associated with assignments provided to CLS Temporary Workers;
- We will plan and conduct periodic reviews of this policy and its arrangements to ensure they remain relevant and effective.
